Hike with Heimdal Tours

One of the many special features of the Faroe Islands is that you don't have to go far to experience magnificent and untouched nature, a short hike into the Faroese mountains affords numerous vantage points that overlook awe-inspiring peaks.

With an abundance of majestic routes to choose from, it is simply up to each individual where the first step starts. You'll find that once you get off the beaten path on foot, the mountains and valleys will open up for you in marvelous and unexpected ways.

Join **Heimdal Tours** and experience re-

juvenating walk from the small village of Hellurnar to the magnificent mountains of Fuglafjørður. The tour starts with going to Eysturoy via the subsea tunnel showcasing the great art installation by Tróndur Patursson "The chain dance".

Then we will continue on to the path to Hellurnar. Legend has it that a giant from Suðuroy came to the village to test his strength. Hence the tour can be a bit challenging. Once we reach the top of the pass Skarðið, we will enjoy lunch overlooking a spectacular view.

Good hiking boots and form are needed for this tour!

**Tour starts with pick up at 10.30
and ends around 17.00**

Due to unforeseeing weather there might be a plan B but there will be a hike!
