## GÁSADALUR

Take bus 300 from Tórshavn to the village of Sørvágur (the final stop). From here, bus 350 drives you to Gásadalur. You can step off before the tunnel and take the scenic and challenging hike to the village. You can also drive straight to Gásadalur and hike the other way around. Take bus 350 back to Sørvágur and board bus 300 to get back to Tórshavn by 13:55.

If you have a bicycle we recommend bringing it to Sørvágur. From here you can explore the views and attractions along the road to Gásadalur, including a coffee stop in the village of Bøur, known for its beach and scenic view of Tindhólmur islet.
